SERVICES, INC.

## High Road School of Massachusetts

To whom it may concern,

I would like to take the opportunity to introduce myself as the new operations manager at the High Road School of Massachusetts. I am excited about this opportunity, as educating and leading youth and adults is my passion. Previously to this, I was a special education teacher at Camino Alto Schools in Willimantic, CT for three years and a Regional Instructional Specialist for two years. As a Regional Instructional Specialist, I served five different schools in the New England region, helping support directors and teachers in the areas of assessment, curriculum and instruction. I hold a provisional educator certification in the state of CT for Special Education-Comprehensive Grades K-12. Currently, I am studying at the University of Connecticut to obtain my 6<sup>th</sup> year degree and certification in intermediate administration.

Growth in professional development is something I align with, and I strive to expand my knowledge as an educator and leader through different professional learning opportunities. Being in the special education field, I have a passion for equity among all students and a conviction to ensure that students in High Road School of Massachusetts receive the same kinds of opportunities as their peers do. I will always make this a priority in the building. I utilize multiple data sources from each student, teacher and our school community to identify areas of growth and strengths we can continue to capitalize on. I am excited to partner with guardians, stakeholders and other professionals while undertaking this endeavor and enjoy being able to collaborate with a team of people.

There is so much to look forward to in this next step, and I am excited to get this journey started! Please do not hesitate to contact me with any further questions at [caterina.campelli@sesischools.com](mailto:caterina.campelli@sesischools.com).

Best regards,

Caterina Campelli
