Consistent with federal and State laws and rules governing student privacy rights, includes procedures for promptly informing parents or guardians of all students involved in the alleged incident of bullying within 24 hours after the school's administration is made aware of the students' involvement in the incident and discussing, as appropriate, the availability of social work services, counseling, school psychological services, other interventions, and restorative measures. The school shall make diligent efforts to notify a parent or legal guardian, utilizing all contact information the school has available or that can be reasonably obtained by the school within the 24-hour period.

"Restorative measures" means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, and (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school. (vii) increase student accountability if the incident of bullying is based on religion, race, ethnicity, or any other category that is identified in the Illinois Human Rights Act.

NewHope serves a unique population of students with disabilities, Emotional Disabilities, Specific Learning Disabilities, Autism, and Other Health Impairments, Ages 11-21. Due to the nature of the population served by NewHope and the possibility that certain acts may be manifestations of a student's disability rather than an intentional act of bullying, as part of determining whether a reported act of bullying is within the permissible

scope of the school's jurisdiction, each reported instance of bullying will be reviewed and assessed for the need to investigate on a case-by-case basis and as determined to be appropriate by NewHope's Administrative team.

If determined to be appropriate for investigation and within the school's jurisdiction, NewHope will comply with the following procedure for promptly investigating and addressing reports of bullying:

- NewHope will make all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.
- Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.
- Notifying the principal or school administrator or his or her designee of the report of the incident of bullying as soon as possible after the report is received.
- Consistent with federal and State laws and rules governing student privacy rights, providing parents and guardians of the students who are parties to the investigation information about the investigation and an opportunity to meet with the principal or school administrator or his or her designee to discuss the investigation, the findings of the investigation, and the actions taken to address the reported incident of bullying.
- Any reports of bullying will be kept confidential to the extent possible given the need to investigate the reported claim.
- As soon as possible after a report is received, the administrative team will be notified of the report of the incident(s) of bullying.

Interventions that may be taken to address findings of incidents of bullying in the school, include, but are not limited to: school therapy services, restorative measures, social emotional skill building, and community-based services. Any student who is determined, after an investigation, to have engaged in an intentional act of bullying will be subject to disciplinary consequences as deemed appropriate and consistent with the school's disciplinary policies. NewHope is a nonpublic, therapeutic school and an agent of Illinois placing school districts, as such, NewHope may share information regarding incidents of bullying with the referring school district(s) of those students involved in a bullying incident, and an individualized education program ("IEP") meeting may be convened to discuss the impact, if any, on the student's current educational program, placement, supports, and services.

Reprisal or retaliation against any person who reports an act of bullying per this policy is a violation of this policy and strictly prohibited. Anyone engaging in retaliation or reprisal against any person who reports an act of bullying may face consequences and appropriate remedial action as deemed necessary by NewHope and consistent with the school's disciplinary policies. Appropriate consequences and remedial action, which are consistent with the school's disciplinary policies, may also be taken against a person found to have falsely accused another of bullying as a means of retaliation or as a means of bullying.
